GAINESVILLE, FLORIDA, TUESDAY, AUGUST 10, 1909

TEN CENTS A WEEK

BRIDGES WANTS TO BE EXONERATED BY COURT

Former Assistant State Chemist Will Test Legality of His Removal By the Governor.

The Tallahassee correspondent of The Times-Union says that within the next few days Benjamin H. Bridges, who was removed from office of assistant State chemist by Governor Gilchrist and Senate of Florida during the legislative session of 1909, will apply to the courts for a writ of quo warranto, which will bring into question the legality of his removal.

The suit will be brought by Messrs. Neely & Simmons of Tallahassee, and they express themselves as fully confident that there was neither legal nor moral warrant for Mr. Bridges' removal.

It will be remembered that Mr. Bridges was removed from office upon a charge of malfeasance in office, in that he agreed to use his influence in behalf of Senate bill No. 231, which bill was introduced by Senator Joseph H. Humphries, and provided that all beverages containing 2 per cent or more of alcohol should be deemed intoxicating liquor. Mr. L. C. Algee, an official stenographer of the Senate, addressed a communication to Joseph Schlitz Brewing Company, advising of the introduction of the bill, setting forth its effects on the near-beer business, and proffering his services in its behalf for \$1,000.

Instead of accepting this proposition, the Schlitz people sent the letter to their Jacksonville branch, whence it was sent to the Senate. A committee of the Senate waited upon Mr. Algee, and asked him the source of certain technical information contained in his letter. He replied that Mr. B. H. Bridges, assistant State chemist, had furnished him the information, and that he had also privately agreed to assist him in an endeavor to get the bill passed, for a consideration of half the money requested, provided the Schlitz people should accept the

proposition. Mr. Bridges being brought before the committee, frankly admitted all that Mr. Algee had said.

Thereupon the committee reported to the Senate. Mr. Algee was discharged and the Governor was requested to remove Mr. Bridges from office, which he did, and in which the Senate concurred. The contention of Mr. Bridges and his attorneys is, that his agreement with Mr. Algee did not amount to malfeasance in office, and that he would not have violated any law of the land, even if his agreement had been carried into effect. He was not charged with lobbying, nor with having any pay for lobbying, but merely with having privately agreed to do so upon a contingency that never happened.

The constitution of Florida enumerates the grounds upon which an officer may be removed, and Messrs. Neely & Simmons feel confident that Mr. Bridges' agreement did not amount to any of these grounds. If this be true, then the Governor and the Senate acted without authority, and their action was, therefore, void.

There have been many rumors and reports, in the press and elsewhere, concerning Mr. Bridges' connection with this unfortunate affair, and many of these reports have done him a gross injustice, in that they have ascribed to him wrongful acts of which he was not guilty. He keenly feels the injustice that has thus been done him, and states that his main incentive in bringing the suit is to set himself right before the people of his State. The statement of the case here given is taken from a certified copy of the proceedings of the committee which conducted the investigation, and is the first accurate statement of the matter ever given to the press.

FRENCH AVIATOR BREAKS RECORD

MOURMELON-LE-GRAND, France, Aug. 9.—The world's record for prolonged flight in an aeroplane was broken Saturday by Roger Sommer, a French aviator, who remained in the air two hours 27 minutes and 15 seconds, breaking thereby the record made by Wilbur Wright at Le Mans, France, last December, when he stayed aloft two hours, 20 minutes and 57 seconds. It was announced, however, that Sommer's time was not regarded as official.

Sommer, who is a pupil of Henry Farman, has owned his aeroplane only since July 4. His first flight was under four miles. He gradually increased his distance until he attained his record of Saturday. Friday he won on behalf of Farman's pupils, a prize of \$200, for a flight in a closed kilometer.

Sommer started at 3:14 o'clock Saturday morning in the bright moonlight. In the beginning he traveled slowly near the ground at elevation running from six to thirty yards. After the machine had become limbered up, the aviator increased his speed and the coming of daylight showed him traveling and maneuvering easily. When it became evident that he had beaten the duration record held by Wilbur Wright, the assembled crowd cheered wildly and as Sommer came to the ground at 41 minutes and 15 seconds past 5 he was given an ovation.

He is using a bi-plane of the Voisin type.

word, the candidacy of the West Florida gentlemen has simplified matters for Mr. Talaferro and practically assured his return to the Senate for a third term; nevertheless, the efforts of the others to secure his place will give him a hard fight.

As to Mr. L'Engle's candidacy, if he is really in earnest and it is not his object to create a diversion in favor of Governor Broward, we think the Fort Pierce News takes the correct view when it says, "Last and undoubtedly least, is Claude L'Engle, who says he will make the canvas of the State in an automobile. This assures him of something to run on. While the other candidates are running on their records, Claude will be running on an automobile. He may create some interest by roasting other candidates, for in this he is a past-master."—Punta Gorda Herald.

Mr. Finger's Improving.

This morning Robert L. Finger, who was injured by 1,500 feet of green lumber falling on him at Veteran July 20th, was brought to the city on the early car. He was on a stretcher and was carried out on the electric pier. He was taken on the morning boat to Tampa, and from there will go to his home at Lakeland. He has shown great improvement lately, and if he continues at this rate will be able to be up in about six weeks. He was accompanied by his father and mother, Mr. and Mrs. W. L. Finger, brother, G. F. Finger, wife and baby, and E. H. Weathers. W. L. Finger will return here next week, while the others will remain at Lakeland.—St. Petersburg Independent.

The Finger family were residents of Alachua county for many years and their many friends here will be glad to learn that Robert Finger is recovering from his injury.

Fire Call Sunday.

For the first time in a number of weeks the fire department was called out by phone on Sunday evening about 5 o'clock to the French cottage, located in East Gainesville. The fire was found to be a pile of clothing in one of the closets, and it was some time after the arrival of the department before it was located, for it had the entire place covered with smoke, having smoldered for some time. The damage outside the loss of clothes was very slight.

PRESIDENT TAFT IS HAVING A GOOD TIME

His Summer Cottage at Woodberry Point, Mass., Is Center of Ideal Pleasure Grounds.

BEVERLY, Mass., Aug.—Sitting on the broad veranda at his summer home on Woodberry Point, President Taft is in the very center of an ideal pleasure ground for a vacation. Secluded there in a beautiful residence park, made up of three or four estates, are many palatial cottages.

The President will enjoy, with Mrs. Taft, the cool breezes from the bay and ocean. Looking toward the sea the island-dotted waters of Salem bay are in the foreground, and beyond are the broader reaches of the bay. Behind are the woods and the pleasant fields of Essex county, with perfect roads for motoring.

The President expects a number of visitors during the summer, but the calls will nearly all be of social character, and business will be tabooed whenever possible. Many members of the diplomatic corps have their summer homes along the northern shore of Massachusetts, and they will be among the first of the Presidential callers. If the President cares to direct his attention to yachting there are a hundred little harbors which he may explore or the broad Atlantic is within an hour's sail. Across Salem bay and almost within view from his veranda are the Eastern, Corinthian and Boston Yacht club houses.

to all of which he will be welcomed as an honorary member.

But perhaps the golf links in the neighborhood will prove the strongest magnet during President Taft's sojourn on the north shore. Within easy motoring distance are the links of Myopia Hunt Club, the Essex County Club, the Montserrat Golf Club, the Tedesco Country Club, the Abenaki club of Rye, N. H., and half a dozen golf clubs in the vicinity of Boston.

The President will probably do most of his golfing at Essex county in Manchester, four miles away. At Myopia, where is the premier course of the country, the President will have to drive far and sure, will have to avoid one hundred and twenty traps, some of which are shoulder deep and will have to conquer eighteen greens, the surface of each of which is as smooth as a billiard table, but whose contour is like the waves of the sea. Essex county should prove a more easy proposition.

The President is as fit as can be physically. The long grind of the congressional session and the hot weather at Washington did not seem to affect him in the least, yet he declared today that he hoped his stay at Beverly would be as dull as it possibly could be made.

\$140,000 To Be Expended At University of Florida

The reporter of The Sun got "mixed" in his statement of the cost of the two new buildings to be erected at the University of Florida, the contract for which was let last Saturday. The contract for the two buildings, the Experiment Station building and Science Hall, is \$65,000, instead of \$160,000, the remaining \$12,000 of the appropriation to be expended in furnishings, equipment, etc.

The appropriation made by the legislature for the University was as follows:

\$40,000 for an Engineering Hall.

\$40,000 for the Experiment Station and Agricultural Hall.

\$40,000 for a General Science Hall.

\$10,000 for the completion of the present buildings.

\$10,000 for the conduct of Farmers' Institutes for two years.

\$10,000 for the improvement of the campus and the farm.

This does not include the appropri-

ation for current expenses.

The appropriation for the Engineering Hall will not become available until next year, but the other improvements will be made as rapidly as the work can be done, the work of completing the present buildings having been already nearly done.

Within two years, at the latest, all work contemplated in the appropriation will have been completed, and the University of Florida will be a source of pride to every Floridian. It is already the equal of any State university in point of curriculum, and young men can obtain an education there as good as is to be had in any Southern State.

Prof. C. K. McQuarrie of DeFunak has been elected superintendent of Farmers' Institutes, to work in connection with Director Rolfs.

MARSHAL ARNOW IS AFTER TIGERS AGAIN

LANDED BIG ONE ON LAST SATURDAY NIGHT.

Negro Put Up Cash Bond of \$60, But Failed to Appear in Mayor's Court Monday.

Marshal Arnow succeeded in catching another "tiger" on Saturday night, and caught the man for two offenses. He had been on the lookout for one Oscar Smith for some time, but Saturday night was his first real good chance at making the haul, and he not only pulled the negro, but got the goods, and then required a cash bond of \$60 before he released him from custody.

In Smith's home was one gallon jug filled with cheap corn whiskey, seven quart bottles, all sealed, besides numerous empty ones that had been drained. When the marshal approached the door and opened it he at once saw the negro was armed with a pistol, which he commanded him to drop and which proved to be a new 38 S. & W.

The negro was required to furnish a \$60 cash bond for his appearance at mayor's court Monday morning, but this was forfeited, for he failed to put in his appearance.

While the marshal was engaged in that part of the "Alley," Policeman Richardson was also busy in catching "Doc" Mortimer, who had made a haul on the supply of L. J. Burkham's socks, confiscating about six pairs. Mr. Richardson relieved him of his goods and also found half a dozen ties belonging to another store. The negro plead guilty in mayor's court and was taxed \$10 and costs at Monday's hearing.

FENNELL IMPROVING.

Dr. Holmes States He is Suffering from Rheumatism.

Information received from L. W. Fennell, who went to Valdosta a few days since, is to the effect that he is rapidly improving. His case has been diagnosed as inflammatory and muscular rheumatism by Dr. J. B. S. Holmes, an old friend of the patient. It is further learned that within a very short while, in the opinion of the doctor, that he will be entirely cured and able to return to his duties on his farm in the eastern part of the county.

Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition—it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

Mr. Raffles of Air Dome.

The mysterious Mr. Raffles of the Air Dome has arrived in the city and on Saturday last took breakfast with N. Francisco, visiting a number of the stores during the day. That you may better get a chance to see him, he will some time during the forenoon enter the store of J. Manasse for the purpose of purchasing goods. He has on numerous occasions purchased cigars at the Brown House.

One citizen has already challenged him, but failed to receive the key, owing to the fact that he had left off the words "Air Dome."

This is simply an advertisement scheme of the Air Dome, and they will issue tickets at each performance entitling you to the permit of a challenge. Visit the show and be among the many who are now asking the question which will prove the talk of the town before the week is over.

Makes Another Good Showing.
Geo. P. Morris, the hustling representative of the Prudential Insurance Company, has again won distinction for himself by receiving free a trip with all expenses to the Thousand Islands in September. The notice he received was in the shape of a letter from Coyne H. Lang appointing him a delegate to the Ordinary Agencies convention at the above point and up to July 27th he was the first in Florida to receive this distinction. After a certain amount of business is placed each season agencies in every territory have prizes given them for their hard work and Mr. Morris has so far been successful in carrying off two of them.

NEGRO SPAT IN MAN'S FACE AT WILCOX

THEN PULLED GUN TO BACK UP
HIS IMPUDENCE.

Arrested for Assault and Will Be
Given Preliminary Hearing Be-
fore Judge Mason on 12th.

F. D. Peterson, deputy sheriff of Wilcox, brought to the city Monday Chas. Ward, a negro who is charged with assault and who will be given a preliminary hearing before Judge Mason on Thursday.

Ward is a Northern negro, almost white in appearance, and it is alleged by some of the people there that he counts himself among the "best" and it is for "playing this" that he now finds himself in the hands of the law.

From what was learned it seems that on last Friday evening Ward became engaged in a dispute with a white man of Wilcox, and when something was said to him he deliberately spat in the man's face, and later attempted to pull his gun, whereupon the warrant was issued.

There have been in all ten witnesses summoned by both the defense and prosecution, and the case promises to be an interesting one.

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

MONDAY'S GAME EASY FOR THE OAK HALLS

EVERY PLAYER ON HIS METTLE AND DID GOOD WORK.

Soldier Boys Have Some Surprises and Will Show Today That They, Too, Can Play.

The "C. A. C. No. 111" baseball players from Fort Dade arrived in the city on Sunday and are pleasantly quartered at the White House during their series of games in Gainesville.

An attempt was made to play the game Monday afternoon, which was started at 4:45 o'clock in the rain, but a very poor cut was made at it, owing to the fearful condition of the grounds, being something the visitors were entirely unused to.

The Oak Halls played pretty ball, for many of their games have been in mud and water during the season, and the experience proved profitable for them. The visitors show up well, and judging from the few balls connected with yesterday you can look for a good game today if the weather is favorable.

The five innings played Monday could not really be called a game, only according to baseball rules, but it was seen that under different circumstances the soldiers would make it quite interesting for the home boys. In size they have them basted, and when they do touch a ball it goes somewhere. We expect to hear of a few of them landing over the fence in today's game if "Happy Jack" does not have mighty good control and keep them fanning the air.

Neither of the teams or managers wanted to make the effort for a game, but at the solicitation of a few of the faithful fans who assembled it was agreed that five innings be played, which resulted as follows:

Gainesville 2 2 3 0 x-7 7 1

C. A. C. 0 0 0 0 0-0 2 3

Struck out—By Hines 5, Vaiden 4.

Wild pitches—Vaiden 3.

Base on balls—Off Vaiden 2.

Umpire—Dr. Ed Clark.

The weather permitting the game will be called this afternoon at 3:30, and one of the most interesting games to be played during the season will be witnessed. They have a club of ball players from their looks, and

Women Suffer Agonies from Diseased Kidneys

And Most Women Do This Not Knowing the Real Cause of their Condition

These poor, suffering women have been led to believe that their misery of mind and body is entirely due to "ills of their sex." Usually the kidneys and bladder are responsible—or largely so. And in such cases, the kidneys and bladder are the organs, that need and must have attention.

Those torturing, enervating sick headaches, dragging pains in back, groin and limbs, bloating and swelling of the extremities, extreme nervousness or hysteria, listlessness and constant tired, worn-out feeling—are almost certain symptoms of disordered and diseased kidneys, bladder and liver.

DeWitt's Kidney and Bladder Pills have, in thousands of cases, been demonstrated as remarkably beneficial in all such conditions of female organism—affording the most prompt relief and permanent benefit.

As an illustration of what these Pills will do, Mrs. P. M. Bray of Columbus, Ga., writes that she was very ill with kidney trouble, and that she is now well—and that these Pills are what cured her.

They are very pleasant to take, and can in no case, produce any deleterious effects upon the system—as syrupy, alcoholic, liquid pre-

parations are apt to do.

E. C. DeWitt & Co., Chicago, Ill., want every man and woman who have the least suspicion that they are afflicted with kidney and bladder diseases to at once write them, and a trial box of these Pills will be sent free by return mail postpaid. Do it to-day.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

Max Wilson is again editor of The Calhoun Democrat, after a much-needed rest of several months.

The editors of The Atlanta Constitution and Journal are endeavoring to see which can hurl the most vile epithets at each other.

During a week's stay in Jacksonville, Pure Food Inspector Jordan only saw two drunken men. Probably the others saw him first.

Editor L. W. Zimm of The St. Augustine Meteor wants a partner to engage in business with him and make the paper a daily.

An eminent physician prescribes the frequent use of sugar for allaying one's appetite for whiskey. Try it when you are "thirsty."

Good crops require good roads to haul them over. Alachua people are happy over the former this season; but how about the latter?

The Sun has a number of extra copies of the laws passed by the last Legislature which can be had free of charge by those desiring them.

The State Board of Health says "Don't kill the dog; if he has rabies he will soon die; then send the head to the laboratory packed in ice."

The first bale of Sea Island cotton of this year's growth was received in Savannah on August 7th. It was grown in Suwannee county, Florida, and is of very high grade.

The Ocala Banner wants Senator Talaferro's successor to come from the interior of the State. Well, trot out your candidate. Frank Harris would get this editor's vote.

How about those Sunday afternoon concerts promised us by the Gainesville Band? Has the City Council prohibited them, or have the boys to use a baseball expression, "gone up in the air"?

The evidence and argument have all been submitted to the court in Harry Thaw's application for release from the asylum for the insane in New York, and Justice Mills is expected to render a decision on August 12th.

The increased duty on pineapples secured by Senator Talaferro was stricken from the tariff bill by the conference committee, and the East Coast pineapple growers will have to continue to grow the fruit in competition with Cuba.

War clouds are again hovering over foreign lands. Japan threatens to wallop China again and Turkey has sent an ultimatum to Greece. The situation in both instances is regarded as acute, and war is liable to be declared at any time.

Santa Rosa county voted against the sale of liquor at the recent election by a majority of 124. Two years ago the majority was 147, a loss to the "dry" of 23 votes. It is said that a number of persons voted to prohibit the sale of whiskey in the county who will vote against State-wide prohibition.

MIGHT LEARN WITH ADVANTAGE.

Nations are constantly learning from each other. The old idea which some nations had that they possessed the acme of knowledge no longer exists. It is now a question of give and take and all the nations are better for it.

Great Britain has learned much from this country in the past half century, and it has been to her advantage. On the other hand there are some things we might well learn from her. Take, for example, the working of law. The tedious, vexatious and uncalled for delays in criminal matters in this country are a reproach, and they afford innumerable loopholes through which many criminals, especially if they have wealth or wealthy friends, escape the penalty of the law.

Certainly in this matter, as Justice Brewer and many other jurists and lawyers admit, England does far better. An instance was that of the recent trial and conviction of the Hindoo student, who shot and killed Col. Wyllie in London a few weeks ago. His trial lasted just one hour, and sentence was at once pronounced.

If the case had been in this country it would probably have taken weeks to secure a jury and many more weeks for the trial. And after trial and sentence, provided the jury did not disagree, there would have been a motion for a new trial. That has been the experience in most murder and other serious criminal cases, and the result is bad. These unwarrantable delays and non-enforcement of law have really put a premium on crime. Reform in trials and law enforcement would speedily bring a diminution in murders and crimes of violence.

Judge William Mann defeated St. George Tucker for the Democratic nomination for Governor in the Virginia primary by between three thousand and five thousand votes. Mann had the support of the Anti-Saloon League and stated on the stump that although he favored local option he would sign a State-wide prohibition law if passed by the Legislature. There was intense interest in the campaign, but, strange to say, a light vote was polled on election day. The successful candidate had a perfect organization back of him, while Tucker depended largely upon his personal popularity with the people. Organization is what accomplishes results in politics.

L. T. Shaw of Brookerville, says The Starke Telegraph, brought The Telegraph a can each of tomatoes and peaches put up with a small canning outfit bought by him for canning fruit and vegetables for home use. The tomatoes and peaches left at this office were equal to any put up by the large canneries. Mr. Shaw's outfit has a capacity of 200 cans a day and he finds it profitable to do canning for his neighbors. Others in the same community have these small canning outfits and Mr. Shaw says it will not be long until his neighbors will be provided every season with an ample supply of canned fruit and vegetables. This begins to sound like living at home.

It is said that Col. Toomer of Jacksonville contemplates measuring swords with Frank Clark for Congressional honors. Col. Toomer is a good and able man, reputed to possess a comfortable fortune, a portion of which he is willing to part with for the honor of going to Congress.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. P. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

Editors McKenzie and Russell, of The Palatka Times and News respectively, were evidently imposed upon in the information given them regarding the game of baseball played in this city last Thursday between the Gem City and Gainesville teams. No one, so far as we could learn, disputed that the Gainesville team won the game fairly; Harvey Hutchinson's decisions were as fair as they possibly could have been, and the home boys were often more dissatisfied with his rulings than were the Palatka players. The disturbance occurred after the winning run had been made by Gainesville, and was the result of an unfortunate misunderstanding resulting from excitable persons on both sides who "got together" before cooler heads could prevent the "scrap."

A few Florida editors are unintentionally doing Gainesville an injustice in publishing an item that we are "preparing" to install a sewerage system. A good sewerage system was completed in this city some three years ago, and if our editorial friends had read the advertisement from which they gained their information they would have found that the same asked for bids for a still further extension of the sewer mains.

It is anything but just to select as a street to be paved with vitrified brick one on which at least two poor widows reside, who we doubt have yet finished paying for the putting down of sidewalks. It would be equivalent to confiscation of their property at this time. Let the work of paving commence around the public square, where the property owners are best able to stand the expense and where the work is most needed.

The Times-Union says "Sunday in Jacksonville's parks is a delight." Gainesville has no park in which the people can spend Sunday or any other day. Our predecessors lacked wisdom in failing to provide such places of retreat, and the indications are those who now manage the city government will be equally as deficient in this respect.

West Florida tobacco growers have as yet failed to find buyers for the excellent crop of tobacco they produced last year. This has placed many of the business men as well as the growers in an embarrassing position, and the outlook for relief in the way of a demand for the weed is not at all encouraging.

The Apalachicola Times remarks that the cattle ranges in that city are abundantly supplied with grass, hence the bovines find easy pickings. We fail to understand why the good ladies of Apalachicola permit such a set of old fogies to hold office as members of the town council.

FORTUNE IS AWAITING HEIRS Wm. H. PICKETT

DECEASED REMOVED TO THE
WEST FROM NORTH CAROLINA.

Fortune Consists of Valuable Tracts
of Land Located in Minnesota.
Not Alachua County Picketts.

The following clipping from a
Wilmington (N. C.) newspaper was
mailed to H. A. Pickett of Newberry,
and is published in The Sun at his
request, as his is not the Pickett fam-
ily sought to be located:

According to information received
in this city by Mr. Reuben H. Pickett
valuable land awaits the claim of the
heirs of one William H. Pickett. This
land is out West and one Nat M.
Pickett, of Madison, N. C., seeks to
locate them. He has written a letter
to Mr. Pickett, of Wilmington, and
Mr. Pickett in the hopes of finding the
heirs or getting trace of them makes
the letter public. It is said that a
William H. Pickett once resided in
Wilmington, and consequently he may
be remembered by some of the older
folks of this city. The letter received
is as follows:

"Madison, N. C., July 31, 1909.
Mr. Reuben H. Pickett, Wilmington,
N. C.

"Dear Sir: I learn that there is a
fortune in land in Minnesota belonging to
one William H. Pickett, or his
heirs.

"Said Pickett was a Confederate sol-
dier, captured by Federal troops and
rather than remain in prison confinement
enlisted in Regular U. S. Army with
understanding he was to go to
the Northwest to fight Indians.

"In Minnesota he entered Govern-
ment land, which is now very valuable.
It appears that he returned to
North Carolina, and made no effort
whatever to get his Minnesota estate.

"He must have died soon after and
his heirs, if he has any, do not know
about the estate due him.

"I should be very happy if I could
assist any of the name or kin to get
this fortune and in fact be happy to
bring it to the Old North State, where
it would be very welcome.

"If you can assist me in any way
I shall be very glad and thank you
very much.

"Trusting you will write me by re-

POWERS WILL TRY TO KEEP THE PEACE

TROUBLE BETWEEN TURKEY AND
GREECE MAY BE SETTLED.

Instructions Have Been Issued Not
to Raise Greek Flag Over Public
Buildings In Crete.

LONDON, Aug. 9.—The acute stage
reached in the dispute between Tur-
key and Greece over Crete is causing
anxiety in the European capitals such
as always accompanies any diplomatic
difficulty in that quarter of Europe,
but, as M. Iswolsky, the Russian
foreign minister, said in an interview
at Cowes last Tuesday, that if there is
any awkward development in the situation
Europe will see that no mis-
chievous effects result therefrom,
there is no idea that hostilities will
follow and there is every belief that
a satisfactory settlement will be ar-
rived at.

From the latest reports it appears
that Turkey has not presented any-
thing in the form of an ultimatum to
Greece, but has confined herself to
verbal protests while the four protect-
ing powers are making energetic rep-
resentations both to Constantinople
and Athens to secure an amicable ar-
rangement of the dispute. The four
powers insist that under no circum-
stances shall the Greek flag be hoisted
over any public building in Crete and
the foreign consuls at Canea have
been instructed to impress this fact
upon the Cretan authorities.

PARIS, Aug. 9.—Great satisfaction
is felt here that Germany is supporting
the representations of the protective
powers upon Turkey for the necessity
of a peaceful solution of the Hurco-
Greek dispute over Crete. The status
quo existing at the time of the evacuation
of Crete by the international troops alone
was promised to Turkey and it is considered
that energetic action is necessary at Constantinople
in order to prevent Turkey from ad-
vancing fresh pretensions.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for
a man to be necessarily bald. No man
whose hair is not dead at the roots, need
be bald if he will use Newbro's Her-
picide, the new scalp antiseptic. Her-
picide destroys the germ that cuts the hair
off at the root; and cleans the scalp of
dandruff and leaves it in a perfectly
healthy condition. Mr. Mannett, in the
Maryland Block, Butte, Mont., was en-
tirely bald. In less than a month Her-
picide had removed the enemies of hair
growth, and nature did its work by cov-
ering his head with thick hair an inch
long, and in six weeks he had a normal
suit of hair. Sold by leading druggists.

RACE WAGERS IN INDIA.

Native's Method of Choosing a Winner and Making Bets.

The native of India wagers his money according to the colors worn by the jockeys and takes no heed of the merits of the horses, or he will back a horse ridden by his favorite jockey, no matter whether the animal is a rank outsider or not.

His ideas of gambling, in fact, are distinctly novel. Some of the more wealthy Indians form rings and back every horse in the race, thus gaining the satisfaction of getting a winner every time. It is really only of late years that the native of India has become a habitual gambler on the turf, and nowadays the bulk of the betting of the various racing centers in India is done by natives. Indeed, the authorities are somewhat concerned about the growth of the betting which takes place among Indian natives, it being asserted that as many as thirty lacs of rupees (about £30,000) is lost and won in the course of a season.

The ignorant masses have not a great deal of actual money to wager, but so badly bitten are many of them with the craze for betting at race meetings that they frequently wager what little property they possess on a horse, and if they lose they simply replace their loss by stealing a neighbor's goods. The consequence is that when the racing season comes around the police are kept very busy dealing with cases of petty larceny and other crimes involving loss of property.—London Tit-Bits.

NOT ANNOYED.

The Directors Were Rather Pleased at the Barrister's Refusal.

Mr. Reader Harris, K. C., was once offered a brief marked 50 guineas on behalf of a railway company that wished to obtain a refreshment license for a particular railway station. He returned the brief on conscientious grounds, but later on it was sent back to him with a fee of 100 guineas marked on it. This time he returned it with a note in which he explained that his refusal was due to a matter of principle. Subsequently he met one of the directors of the company and expressed a hope that he and his colleagues were not annoyed at his conduct.

"Not at all," said the director. "I'll tell you all about it. So-and-so, the big brewer, was sitting on the board for the first time at the meeting at which the solicitor reported that your brief marked 50 guineas had been returned. 'Who's this psalm singing humbug?' he asked. 'Mark the brief 100 guineas and I'll bet you anything you like he'll take it.' 'Oh, you will, will you?' asked the chairman. You see, we all knew you, Harris. We took the brewer on at 5 to 1 in five pound notes. He booked the bets with every one of us, and he has paid up."—London Scraps.

ABOUT ADVERTISING—NO. 5

The Doctor Whose Patients Hang On

By Herbert Kaufman.

Out in China all things are not topsy turvy. Physicians are paid for keeping people well and when their patients fall ill their weekly salary check is stopped. The Chinese judge a medical man not by the number of years he lives, but by the length of time his clients survive.

An advertising medium must be judged in the same way. The fact that it has age to its credit isn't so important as the age of its advertising patronage. Whenever a newspaper continues to display the store talk of the same establishment year after year, it's a pretty sure sign that the merchant has made money out of that newspaper, because no publication can continue to be a losing investment to its customers over a stretch of time without the fact being discovered. And when a newspaper is able to boast of an honor roll of stores that have continued to appear in its pages for a stretch of decades it has proven its superiority as plainly as a mountain peak which rises above its fellows.

The combination of stability and progress is the strongest virtue that a newspaper can possess. Only the fit survive—reputation is a difficult thing to get and a harder thing to hold—it takes merit to earn it and character to maintain it. There is a vast difference between fame and notoriety, and just as much difference between a famous newspaper and a notorious one.

Just as a manufacturer is always eager to install his choicest stocks in a store which has earned the respect of the community, just so a retailer should be anxious to insert his name in a newspaper which has earned the respect of its readers. The manufacturer feels that he will receive a square deal from a store which has age to its credit. He can expect as much from a newspaper which is a credit to its age!

The newspaper which outlives the rest does so because it was best fitted to—it had to earn the confidence of its readers—and keep it. It had to be a better newspaper than any other, and better newspapers go to the homes of better buyers. Every bit of its circulation has the element of quality and staying power. And it is the respectable, home-loving element of every community—not the touts and the gamblers—toward which the merchant must look for his business vertebral—he cannot find buyers unless he uses the newspaper that enters their homes. And when he does enter their homes he must not confuse the sheet that comes in the back gate with the newspaper that is delivered at the front door.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

Gainesville Has:

TWO PIANOS AND A DIAMOND RING

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects there-to will be given each of those tying.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for \$100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for \$25 to all other contestants in the race, and will make special arrangements with any-one to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a **HANDSOME DIAMOND RING**.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. **ONE PIANO**.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wanee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. **ONE PIANO**.

How and Where to Get Votes
